

# Man at Arlington

Deciderius / Møller

A voice raised among us  
In the heat of the night  
Told us to believe in  
What we know is right  
With the love of God  
In his words and his might  
A candle of hope made us able to fight

## **Chorus :**

There's a man buried at Arlington  
Who didn't get to see  
The things that he'd done  
And if that man could stand up and cry  
Baby - so can I - so can I

He had a dream  
He'd like to share with us  
We shall overcome - respect for everyone  
Defy our anger - & make peace instead  
Forgive who we hate  
Let go of fear in our heads

## **Chorus**

He was black - some couldn't see his light  
A bullet took him down  
They were afraid he was right  
It's hard to change  
Unfold the hearts of man  
But all should know  
We can do what we can

## **Chorus**
