

Wonderless

Deciderius / Møller

*Star bright - gypsy night
Spring is on your breezes
Young wild fragile child
Going where he pleases
Searching for that kind of night
You had when you were younger*

Chorus:

*Some may call it wonderless
Some may call it crazy
I don't call it anything
I just let it take me*

*Dark blue slips into
Closing skies of twilight
Still streets take my feet
Dancing towards midnight
It's just that kind of night
That brings a special kind of hunger*

Chorus

*Soft wind rolling in
Settles down upon me
I'm bound towards the sounds
Of something just beyond me
Open eyed and moving towards
The distant voice that's calling me*

Chorus
